COTTON UP \$2 TO \$3 ON FRANTIC BUYING

Liverpool Spinners Rush for Staple, All Active Months Scoring Records.

SOUTHERN SPOTS FIRM

Temporary Suspension Trading in Manchester Ex-· change Reported.

Cotton advanced \$2 to \$3 a bale yes Cotton advanced \$2 to \$3 a bale yea-terday in a boiling market dominated by the cush to purchase by Liverpool spinhe cush to purchase by Liverpool spin-ners. At the close, characterised as May hers. At the close, characterised of LARDstrong, quotations showed net game of January.

31 to 52 points, all months except December having advanced above the 21 cent mark. New high records were made for all active months.

The Liverpool market, which was no open on Saturday, was expected to come 4 to 5 points lower, but instead no cotton was for sale there within 20 points of New York's close on Saturday. Opening prices there were 40 to 45 points up, finally closing 25 to 28 points up, spot having advanced 51 points, to 12.59d.

Firm spots in the South and reports that the ginning report would be bullish that the ginning report would be bullish helped to augment the buying orders, which showered upon the market in such volume that the bears were put to flight. First prices were 35 to 40 points up from Saturday's close. Liverpool was a strong buyer, commission houses were in the ring for big blocks of contracts and New Orleans sold, but there was not enough of the staple to go around.

After a terrific sixty minutes of trading prices were hammered back

After a terrine sixty minutes or trading prices were hammered back some 10 to 15 points from the highs at the opening, a fairly good line of cotton having been brought out. Despite considerable profit taking by Wall Street interests and big room traders prices did not recede much, being maintained by new orders and the strong general undertone. The optimistic tendencies of the stock

market influenced cotton trading, and close watch was kept on foreign as well A fresh advance came after the midmorning setback, followed by a com-paratively soft spot and an afternoon bulge that left the closing figures prac-tically the highest of the day. October, a crop that will come to the market twelve months from now, gained 28 points over Saturday's close. It is considered remarkable that the contracts

should make such jumps, and by some that it should be traded in at all with the crop so far away. Spot cotton advanced throughout the South from 1s to 5sc. a pound.

Exports for the day 25,996 bales, making 182,322 so far this season.

NEW Orleans Cotton Market.

NEW ORLEANS, Nov 20.—Opening at a bulge of nearly \$2 a bale on the strongest months, cotton maintained new high levels throughout the season to-day, July going above 21 cents a pound and the market closing at a net gain of 42 to 45 points. Bullish excitement in the Liverpool market, expectations of small ginning figures in to-morrow's report from the census bureau and favorable spot accounts from Southern markets atimulated the demand. Futures

Closing

Advances Affect Manchester. LONDON, Nov. 20—An advance of a half penny in American cotton and three half nence in Emptian cotton to-day occasioned temporary suspension of business on the Manchester exchange, the Exchange Telegraph Company reports.
